

# Council Tallies

## In the 21<sup>st</sup> Century

Ensemble Councils ⇒ Balanced Majorities

Council Elected by Central and Fair-Rep Rules

**Ensemble rules** will elect most representatives by **Fair Rep** plus a few reps (**C** above) by a **central** rule.

So the points of view within the council will have a **spread**, plus a pivotal **midpoint** that match the voters more accurately.  $\bigcirc + \bullet = \text{target}$  That's the target.\*

Later handouts will show how we can elect a rep with wide support and views near the center of the voters.<sup>7</sup> So winners will be near the center of a Fair Rep council. There they can be the council's **powerful swing voters**, with strong incentives to build moderate majorities.

Many voters in this wide base of support won't want narrow centrist policies. They'll likely want policies to **combine the best suggestions from all groups**.

## Progress of Democracy

A centrist policy implements a narrow set of ideas. It blocks rival ideas: opinions, needs, goals, and plans. A one-sided policy also blocks rival ideas.

A compromise policy tries to negotiate all the ideas. But contrary ideas forced together often work poorly.

**A balanced policy** blends compatible ideas from all sides. This process needs advocates for diverse ideas. What's more, it needs strong, independent **moderators**. These swing-voting reps can please their wide base of support **by** building moderate majorities in the council.

**A broad, balanced majority** works to enact broad, balanced policies. These tend to give the greatest chance for happiness to the greatest number of people.

Excellent policies are a goal of accurate democracy. *Measure* their success by the typical voter's education and income, freedom and safety, health and leisure.<sup>8</sup>

Older rules often skew results and hurt a democracy. An **ensemble** is **inclusive**, yet **centered** and **decisive** to help make its actions **popular**, yet **stable** and **quick**. The best tools to set budgets or pick a policy will also show these qualities in our stories, graphics and games.

## Summary and Index of Benefits

Ranked Choice Voting has proven to:	Page*
<b>1, 2, 3, 4. Make voting easy</b> , more effective.....	14, 57
Give you power to rank a backup choice; so .....	33, 45
Reduce your risk of wasting your vote; so .....	12, 16
Vote worry free for your true first choice. ....	14
<b>Boost mandates as more voters count.</b> ...	11-21, 57
<b>1, 2. Reduce attack ads</b> that scare, anger, polarize...	14
<b>Weaken gerrymanders</b> and spoilers. ....	14, 16, 32
<b>2. Give fair shares</b> of reps to the rival groups; so .....	16
Give diverse candidates real chances to win; so .....	18
Give voters real choices and effective votes; so .....	17
<b>Make voter turnout stronger.</b> .....	61
<b>2. Elect women</b> two or three times more often; so ....	18
Accurate majorities win, also due to more choices...	17
turnout, effective votes, equal votes per rep; so .....	19
<b>Make policies match public opinion better.</b> ..	19, 60

Even then, old decision tools push policy pendulums...4

### An RCV toolbox can do more

<b>4. Elect a few central reps</b> , key votes pulling .....	31, 56
reps from many factions <b>to moderate policies.</b> .	8, 54
<b>3. Use Fair Share Voting</b> for projects, savings, etc....	24
Reveal a rep's <b>spending</b> ; <b>cut corruption.</b> .....	27, 59
<b>3, 4. Reduce agenda effects</b> and scams...27,	30, 33, 36
<b>Streamline group decision-making.</b> .....	27, 33, 36

# Social Effects ♥

## Tools that Build Communities

A group's decision rules pull its **culture** toward fair shares *or* toward winner takes all. They spread power wide and balanced, *or* narrow and lopsided. Other relations among members may follow their models.

Fair rules make **cooperation** safer, faster and easier. This favors people and groups who tend to cooperate. It may lead others to cooperate more often.

Politics are more **principled** and peaceful when all the rules help us find fair shares and central majorities. This might reduce political fears within our community; which helps us to be more receptive, creative and free.

So better tally rules can help us build better decisions, plus better **relationships**. Both can please most people. Fair rules won't please some who get money or self-esteem from war-like politics. But countries with fair rules tend to rank high in social trust and happiness.<sup>1</sup> Voting is an exemplary tool between people.

## Contrast 3 Councils, each with 5 seats

1. The **Loring Ensemble Rule** elects a few reps by a Condorcet Tally, the rest by a Proportional RCV tally. On this next map, Condorcet Tally elects **AI**; then Fair Rep by four-seat PRCV elects **Bev, Di, Fred** and **Joe**. The map shows each winner's name in **bold**. \*

2. The **Condorcet Series** elects the candidates closest to the middle of the voters: *AI, Bev, GG, Joe* and *Fred*. The lower right or southeast gets no rep; so the council is not well balanced. Each winner's name is in *italic*.

3. **Fair Representation** by five-seat **Proportional RCV** elects Bev, Di, Fred, GG and Joe. Each name is underlined. It eliminated AI!

### Notice Two Surprises

1. It may be surprising that **broad Fair Rep** helps the **central Condorcet** winner be the council's **swing voter**. With these tools, political diversity can be a source of moderation as well as balance and a wide perspective.

2. **Central reps** can lead a **broad Fair Rep council** to **broader majorities**, with moderates from *all* sides.\* This can add to or replace some of the "checks and balances" used to moderate a council's impacts.

## Well Centered and Balanced

An **Ensemble** council combines the breadth and balance of **Fair Representation** with the centering of **Condorcet**.

A council's **swing voter** on a regulation or a budget can strongly influence but not dictate those decisions.

**Proportional RCV** elects a **balanced council** with moderates and often a centrist. But it does not push any rep to please a **central majority** of voters. A **Condorcet tally** does.
