## Voting Reforms Aid Other Reforms

1 **Ballot access** rules block a new party or independent if the established parties fear it will split their voters. To calm this fear, let voters rank their backup choices. **Ranked Choice Voting, RCV**, opens up elections.

3 **A news firm** may inform us better if the subscribers steer more parts of it than the owners or advertisers do. Here's a low-cost method for any membership group: **Fair \$hare Voting** can reward the best news bloggers.

3 **Public campaign funding** lets reps and rivals give less time to their sponsors, more time to their voters. One plan gives each voter \$50 of vouchers to donate.<sup>1</sup> Such nameless gifts or **F\$V** may cut corrupt paybacks. Sponsors aim gifts to buy the few swing-seat districts. **RCV** and **Fair Representation** make that harder.<sup>2</sup> 1 2

*“It's very hard to see us fixing the climate until we fix our democracy.”*  
Dr. James Hansen climate scientist<sup>3</sup>

1 2 **Good schools**, taxes and voting rules may go together.<sup>4</sup>

1 **Sabbatical terms** make the current rep run against a former rep returning from rest, reflection and research. **Then the candidates include two with records in the job!** In **RCV**, similar candidates do not split apart the voters.

4 **Citizens' assemblies**<sup>5</sup> and their referendums can get more choices and control by using **Condorcet Tallies**. The laws on voting rules, reps' pay, sponsors, etc. need referendums because the reps have conflicts of interest.

## More Endorsements

## About Us

### About FairVote

info@fairvote.org

FairVote is a nonpartisan champion of electoral reforms that give voters greater choice, a stronger voice, and a representative democracy that works for all Americans.

FairVote has a proven record since 1992 as a trailblazer that advances and wins electoral reforms at the local, state, and national level through strategic research, communications and collaboration. Today it is the driving force behind advancing ranked choice voting and fair representation in multi-winner legislative districts that will open up our elections to better choices, fairer representation and more civil campaigns.

### Robert Loring's Work

VotingSite@gmail.com

In 1990, John R. Chamberlin, and Samuel Merrill III each gave me permission to use their sim statistical research results to advance a hybrid Condorcet-RCV rule. In the 1990s, I created *PoliticalSim*<sup>TM</sup> and *SimElection*<sup>TM</sup>. They compared 30 single- and multi-winner rules from around the world and were used in a few universities. Pages 48-56 show maps from these simulation games. My sim research led in 1996-97 to *Democracy Evolves*.<sup>11</sup> Then I helped FairVote as a webmaster and librarian. For 10 years I've cheered Dr. Robert Tupelo-Schneck, Ian Little, Adder and Kathryn Simmons with Twin Oaks Community for developing Fair Share Voting. (page 24) The booklet summarizes *Accurate Democracy.com*.

The goals are better group-decision results (page 61), through systemic changes (e.g. pages 34, 58), through better tools between people (e.g. pages 24, 27, 33, 35).

## Voting Reform Is Cost Effective

**Issue campaigns** teach voters and reps for years. This eases one problem, but rarely fixes the source.

**Election campaigns** cost a lot all at once. The biggest faction can skew all policies for a few years.

**Reform campaigns** cost no more than elections. Ranked choice voting strengthens the votes supporting the reps and policies for many years.

Campaign **costs in green, results in yellow.**

### Strengthen Votes, Mandates and Policies

RCV will help us organize from the bottom up. It will expand the base of power, the numbers of effective votes and voters supporting:

	Pages
1 a CEO or a <b>Chair</b> from a plurality to a majority	14, 31
2 a <b>Council</b> from a plurality to over three quarters	17
3 a <b>Budget</b> from a few power blocs to all members	24
4 a <b>Policy</b> from a one-sided to an over-all majority.	30

Votes for real choices tally up *democratic* power. It needs big mandates to govern new nondemocratic powers in: markets, media, military, money, etc. Mandates aid actions to achieve popular goals. These all earn renewed respect for democracy.
